Work

Fire / UI/UX Designer

June - August 2020

- sole designer, in charge of design process from user research to high fidelity prototypes
- created user personas, conducted accessibility research, drafted wireframes, prototyped for main cross-platform mobile app and web notification management dashboard
- valued feedback from developers and client liaisons to improve prototypes and come up with creative solutions to design challenges

MassCOSH / Web Designer & Frontend Developer

February 2020 - July 2020

- designed and implemented a database that collects data through a hotline intake form to digitize MassCOSH's data management
- conducted user testing starting at low fidelity stage and iterated based on feedback
- created user flow for the hotline intake form with over 15 screens of conditional content

Education

Tufts University / BS in Computer Science & Engineering Psychology

2019 - 2023

- Minor in Entrepreneurship
- GPA: 3.85 / 4.00

Leadership

Raise A Smile / Founder & Co-President

September 2016 - June 2019

- started a new club at Newton South, expanded from 10 to 32 members
- introduced and organized Newton South's first Dance Marathon, raised over \$11,000 for the Boston Children's Hospital
- organized and led over 10 projects, collaborating with local organizations and businesses
